## Projects

**Zenavo**, *React js, Tailwind CSS, Nodejs, Express js, Mongoose.*
It is a fitness app in which you can track your fitness progress with ease using our app!
Log your workouts, sets, reps, and weights to stay organized and motivated.

**Portfolio**, *React js, Tailwind CSS, Formspree.*
Created and maintained a personal portfolio website showcasing my skills, projects, and professional achievements. Focused on presenting a clean, user-friendly design to highlight my work, demonstrate technical expertise, with functional designs that offer seamless user experiences.

**PassMan**, *React, Tailwind CSS, Node js, Express js, Mongoose.*
Developed a simple password manager to securely store and manage passwords. Focused on providing an easy-to-use interface for users to save, retrieve, and protect their login credentials, ensuring privacy and security.

**Todo app**, *React, Tailwind CSS.*
Developed a basic To-Do app to help users create and manage task
